ALLEN, HAMILTON FORD.—The case of Greek again, 342
America, development of education in, Contributions of William Torrey Harris to, 299; Educational tendencies in, 13; Proposed removal of the Academy of Geneva to, in 1794, 365
American college, Critical period for, 165
American teaching, Contributions to the history of, 53, 227
Americans, Academic honors for, 104
Appreciation (An) of William Torrey Harris, 1
Athletics (College) and physical education, 144
Ayres's (Leonard P.) *Laggards in our schools*, 199

BACHMAN, FRANK, (and ELSON, WILLIAM H.)—School records: their defects and improvement, 217; Different courses for elementary schools, 357
Beit Memorial Fellowships, 211
BLACK, N. HENRY.—The new definition in physics, 176
Boston, National Education Association at, 321
British education, The service of William Torrey Harris to, 191
Brown (George P.), 322
BROWN, JOHN FRANKLIN.—A Prussian gymnasial seminar, 269
BUCHNER, EDWARD FRANKLIN.—Evaluation of higher education by means of the unit system, 511
BULLARD, R. L.—Education in Cuba, 378

CARPENTER, WILLIAM H.—*Report of the Carnegie Foundation for the Advancement of Teaching*, 407
Case of Greek again, 342
Changes (proposed), A consideration of, in the college entrance requirements in English, 194; of view as regards some points in the history of elementary mathematics, 403
Charters's (W. W.) *Methods of teaching*, 418
Classification (The) of pupils, 394
College (American), The critical period for, 165; and school, The function of Latin in, 257; athletics and physical education, 144; course, Geology in, 325; physics in, 472; woman, Psychological gains and losses of, 238
College entrance requirements, in English, 323; A consideration of proposed changes in, 194; in Latin, Report of the Commission on, 182
Colleges (Ohio), Moral conditions in, 500; Those godless, 213
Commercial branches in the high school curriculum: a reply, 308
Commission on College Entrance Requirements in Latin, Report of, 182
Community (The) and the teacher, 459
Conditions (Moral) in Ohio universities, 500
Congestion (school), Partial remedy for, 400
Consideration (A) of proposed changes in the college entrance requirements in English, 194
Contributions, of William Torrey Harris to the development of education in America, 299; to the history of American teaching, 53, 227
Courses, (Different) for elementary schools, 357; of study in state normal schools, Tendencies in the content of, 156
Critical period for the American college, 165
Cuba, Education in, 378
Current educational publications, 94, 188, 296, 391, 522
Curriculum (high school), Commercial branches in, 308

DANIELS, JOSEPH F.—College athletics and physical education, 144
Davenport's (E.) *Education for efficiency*, 100
Defects and improvement of school records, 217
Definition (New) in physics, 176
Demand, and supply, in education, 311
Development of education in America, Contributions of William Torrey Harris to, 299
Different courses for elementary schools, 357
Discovery (scientific), The influence of, on mathematics, 351
Discussions, 97, 191, 299, 394, 525
Draper, Commissioner, 538
Draper's (Andrew S.) *American education*, 315
Dust and straws and sticks, 61; an appreciation and a reply, 309

Educational, currents (Three) in England, 207; publications (Current), 94, 188, 296, 391, 522; tendencies in America, 13
Education, (British) The service of William Torrey Harris to, 191; (higher) Evaluation of, by means of the unit system, 511; (higher), Notes on sectarianism in, 82; in America, development of, Contributions of William Torrey Harris to, 299; in Cuba, 378; (Physical) and college athletics, 144; Supply and demand in, 311
Elementary, mathematics, Recent changes of view as regards some points in the history of, 403; schools, Different courses for, 357
ELSON, WILLIAM H. (and BACHMAN, FRANK P.)—School records: their defects and improvement, 217; Different courses for elementary schools, 351
England, Three educational currents in, 207
Entrance requirements (College) in English, 323; A consideration of proposed changes in, 194
Equalization of teachers' salaries, 289
Equal pay fallacy, 208
Evaluation (The) of higher education by means of the unit system, 511
Evolution, The interpretation of, 105

Fallacy, The equal pay, 208
Fellowships (Beit Memorial), 211
FITZPATRICK, FRANK A.—Draper's (Andrew S.) *American education*, 315; William Torrey Harris: an appreciation, 1
Function of Latin in school and college, 257

Gains and losses (Psychological) of the college woman, 238
Generation, Unwhipped, 525
Geology in a college course, 325
Godless colleges, Those, 213
GOSLING, T. WARRINGTON.—The classification of pupils, 394
Greek, The case of, again, 342
GREEN, JAMES M.—Charters's (W.W.) *Methods of teaching*, 418
GREENWOOD, JAMES M.—William Torrey Harris: educator, philosopher, and scholar, 121

Mathematics, Influence of, on scientific discovery, 351; A proposed reform in, 455; (elementary), Recent changes of view as regards some points in the history of, 403
Maxwell (Superintendent) of New York, 322
McAndrew, William.—Norwood (Cyril) and Hope's (M. A.) *Higher education of boys in England*, 317
McMurry's (F. M.) *How to study and teaching how to study*, 534
Mead, Edwin D.—Proposed removal of the Academy of Geneva to America in 1794, 365
Memorial (Beit) Fellowships, 211
Meriam, J. L.—McMurry's (F. M.) *How to study and teaching how to study*, 534
Meriwether, C.—Commercial branches in the high school curriculum: a reply, 308
Miller, E. A.—Moral conditions in Ohio colleges, 500
Miller, G. A.—Recent changes of view as regards some points in the history of elementary mathematics, 403
Millner, H. Lloyd.—The function of Latin in school and college, 257
Moral conditions in Ohio colleges, 500
Morrison, H. C.—Lack of leaders or changed conditions, 97
Münsterberg's (Hugo) *Psychology and the teacher*, 417

National Education Association at Boston, 321
New definition in physics, 176; scheme for the training of teachers in Scotland, 433
New York, Superintendent Maxwell of, 322
Normal schools, and simpler spelling, 212; and the rural school problem, 484; Tendencies in the content of the courses of study in, 156
Norsworthy, Naomi.—Kirkpatrick's (Edwin A.) *Genetic psychology*, 531; Rowe's (Stuart H.) *Habit formation and the science of teaching*, 420
Norwood (Cyril) and Hope's (M. A.) *Higher education of boys in England*, 317
Notes and news, 104, 207, 321, 537
Notes on new books, 102, 205, 320, 422, 535
Notes on sectarianism in higher education, 82

Ohio colleges, Moral conditions in, 500

Packard, John C.—A proposed reform in mathematics, 455
Parsons, E. Dudley.—The unwhipped generation, 525
Partial remedy for school congestion, 400
Peck, Elizabeth Du Bois.—Supply and demand in education, 311
Perry, Francis M.—A consideration of proposed changes in the college entrance requirements in English, 194
Phonetics, What is the use of? 109
Physics in the college course, 472; The new definition in, 176

Physical education and college athletics, 144
Plan of school reorganization, 210
Princeton, The preceptorial system at, 385
Proposed, changes, A consideration of, in the college entrance requirements in English, 194; reform in mathematics, 455; removal of the Academy of Geneva to America in 1794, 365
Prussian gymnasial seminar, 269
Psychological gains and losses of the college woman, 238
Publications, Current educational, 94, 188, 296, 391, 522
Pupils, The classification of, 394

Recent changes of view as regards some points in the history of elementary mathematics, 403
Records (School): their defects and improvement, 217
Reelection of Secretary Shepard, 537
Reform (Proposed) in mathematics, 455
Religious lesson and teachers, 32
Remedy (Partial) for school congestion, 400
Removal (Proposed) of the Academy of Geneva to America in 1794, 365
Reorganization (school), A plan of, 210
Report of the Commission on College Entrance Requirements in Latin, 182
Report of the Carnegie Foundation for the Advancement of Teaching, 407; *Illinois Educational Commission*, 411
Requirements (College entrance) in English, 323; A consideration of proposed changes, 194
Returning sanity, Signs of, 106
Reviews, 100, 199, 315, 407, 531
Rowe's (Stuart H.) *Habit formation and the science of teaching*, 420
Rural school problem and state normal schools, 484

SADLER, MICHAEL E.—The service of William Torrey Harris to British education, 191; Teachers and the religious lesson, 32
Sanity (returning), Signs of, 106
Salaries (Teachers'), The equalization of, 289
Scheme (New) for the training of teachers in Scotland, 433
School, and college, The function of Latin in, 257; congestion, Partial remedy for, 400; (high) curriculum, Commercial branches in, 308; problem (rural) and state normal schools, 484; records: their defects and improvement, 217; reorganization, A plan of, 210; (secondary), Vocational subjects in, 333; (elementary), Different courses for, 357
Scientific discovery, The influence of, on mathematics, 351
Scotland, The new scheme for the training of teachers in, 433
Secondary school, Vocational subjects in, 333
Sectarianism in higher education, Notes on, 82
Service (The) of William Torrey Harris to British education, 191
SHOWERMAN, GRANT.—Straws and sticks and dust, 61
Shepard (Secretary), Reelection of, 537
Signs of returning sanity, 106
Simpler spelling and the normal schools, 212
SNEDDEN, DAVID.—Educational tendencies in America, 13; The new scheme for the training of teachers in Scotland, 433; *Report of the Illinois Educational Commission*, 411
Spelling (Simpler) and the normal schools, 212
State normal schools, and the rural school problem, 484; Tendencies in the content of the courses of study in, 156
Step forward, An important, 214
Straws and sticks and dust, 61; an appreciation and a reply, 309
SUPER, CHARLES.—Contributions to the history of American teaching, 53
Supply and demand in education, 311
